

## What you must do to get covered care

---

### 2025 Blue Cross and Blue Shield Service Benefit Plan - Standard and Basic Option

#### Section 3. How You Get Care

#### What you must do to get covered care

---

##### What you must do to get covered care

Under **Standard Option**, you can go to any covered provider you want, but in some circumstances, we must approve your care in advance.

Under **Basic Option**, you must use **Preferred providers in order to receive benefits, except under the situations listed below**. In addition, we must approve certain types of care in advance. Please refer to Section 4, *Your Costs for Covered Services*, for related benefits information.

Exceptions:

1. Medical emergency or accidental injury care in a hospital emergency room and related ambulance transport as described in Section 5(d), *Emergency Services/Accidents*;
2. Professional care provided at Preferred facilities by Non-preferred radiologists, anesthesiologists, certified registered nurse anesthetists (CRNAs), pathologists, neonatologists, emergency room physicians, and assistant surgeons;
3. Laboratory and pathology services, X-rays, and diagnostic tests billed by Non-preferred laboratories, radiologists, and outpatient facilities;
4. Services of assistant surgeons;
5. Care received outside the United States, Puerto Rico, and the U.S. Virgin Islands; or
6. Special provider access situations, other than those described above. We encourage you to contact your Local Plan for more information in these types of situations before you receive services from a Non-preferred provider.

**Unless otherwise noted in Section 5, when services are covered under Basic Option exceptions for Non-preferred provider care, you are responsible for the applicable coinsurance or copayment, and may also be responsible for any difference between our allowance and the billed amount.**
