**Benefit Description**

**Surgical Procedures (cont.)**

Note: When multiple surgical procedures that add time or complexity to patient care are performed during the same operative session, the Local Plan determines our allowance for the combination of multiple, bilateral, or incidental surgical procedures. Generally, we will allow a reduced amount for procedures other than the primary procedure.

Note: We do not pay extra for “incidental” procedures (those that do not add time or complexity to patient care).

Note: When unusual circumstances require the removal of casts or sutures by a physician other than the one who applied them, the Local Plan may determine that a separate allowance is payable.

Note: For surgical family planning procedures, see *Family Planning* in Section 5(a).
